

A4 Transport simplifies international logistics by managing border procedures, duty calculations, and regulatory documentation to keep cross-border supply chains running smoothly.

Comprehensive Documentation & Filing

- **Import & Export Declarations:** Processing of standard customs declarations via the UK Customs Declaration Service (CDS) for UK, EU, and global trade movements.
- **Commodity & Tariff Classification:** Proper classification of goods using HS/HSN codes to ensure correct duty and VAT assessments and prevent costly border holds.

Cross-Border & Transit Support

- **Cross-Channel & Cross-Border Logistics:** Specialist oversight for movements across mainland UK, Northern Ireland, the Republic of Ireland, and mainland Europe, including transit documents (T1/T2) where applicable.
- **Port & Terminal Operations:** Direct coordination with customs clearance agents and port health authorities at major UK seaports and air freight terminals to ensure rapid clearance upon arrival.

Compliance & Risk Mitigation

- **Regulatory Oversight:** Guidance on restricted goods, licensing requirements, and origin rules to ensure full compliance with HMRC standards.
- **Audit & Traceability:** Complete digital record-keeping and clear documentation trails for every consignment, reducing administrative burden and exposure to non-compliance penalties.
